Professional Summary

Passionate Mobile App Entrepreneur and Developer, highly skilled in taking React Native projects from concept to launch across both iOS and Android. I thrive on building cutting-edge applications, mastering everything from robust API integrations to seamless user experiences and efficient deployment pipelines. With a strong history of leading teams and optimising performance, I'm always looking for innovative ways to solve problems and deliver impactful mobile solutions that stand out.

Technical Skills

- Languages/Frameworks: React Native, JavaScript, TypeScript, Redux, React Hooks
- Mobile Development: Android, iOS, Firebase, NativeBase, Native Module Bridging
- API Integration: RESTful APIs, Authentication, Real-time Data Sync
- Tools & Processes: Git, VS Code, Android Studio, Xcode, CI/CD Pipelines, App Signing & Release Management
- UI/UX: Mobile UI/UX Design, Responsive Layouts, Accessibility Best Practices
- Security: Secure Data Handling, Authentication & Authorisation, Encryption Practices
- Project Management: Agile, JIRA
- Other Skills: Microsoft 365 Administration, Help Desk Support, Troubleshooting

Professional Experience

Frontend Developer – Future Access Pty Ltd (Brisbane, Australia)

- Built and deployed cross-platform mobile frontend for Gem Times App using React Native.
- Integrated MySQL database with ASP.NET RESTful APIs for secure real-time logistics and warehouse operations.
- Designed and developed responsive UI components aligned with accessibility standards and mobile-first best practices.
- Utilized FTP and cPanel for secure deployment and database management.
- Collaborated with backend developers, designers, and industry stakeholders in an Agile environment to refine features and improve performance.

Service Help Desk – Amazon Fulfillment Center (Feb 2025 – June 2025)

- Managed and resolved customer service tickets, ensuring high customer satisfaction.
- Diagnosed and troubleshooted hardware, software, and network issues for end-users.
- Led decommissioning and installation of new IT equipment, ensuring smooth transitions and minimal downtime.

Team Lead Developer – TECHVANDO (Private) Limited (Aug 2021 – June 2023)

- Led end-to-end React Native development for enterprise mobile apps, architecting scalable solutions across iOS and Android.
- Integrated secure RESTful APIs, MySQL databases, ensuring robust data handling and security.

- Implemented CI/CD pipelines using AppCenter & GitHub Actions, automated testing, and release processes.
- Optimized apps for performance, responsiveness, offline capability, and video streaming integration.
- Mentored junior engineers on native modules, Kotlin/Swift bridging, and QMS-compliant development
- Coordinated with cross-functional teams (design, QA, backend) using Agile/Scrum methodologies to meet delivery timelines.

Mobile App Developer – EN Route Technologies LLC (April 2021 – July 2021)

- Designed and developed the “Vacancies” job listing app using React Native and modern UI/UX practices.
- Integrated authentication, push notifications, and real-time updates via secure REST APIs.
- Configured CI/CD pipelines with automated builds, testing, and multi-environment deployments.
- Conducted unit, integration, and UI testing to ensure app stability and compliance.
- Implemented Firebase (Analytics, Crashlytics) and AdMob SDKs for insights and monetization.
- Collaborated with designers and QA teams in an Agile/Scrum environment for iterative delivery

Mobile App Developer – FOTOHUB Studios, Islamabad (Jul 2020 – Mar 2021)

- Delivered an educational mobile system using React Native, Redux, and NativeBase.
- Handled full SDLC: design, API integration, UI/UX workflows, testing, debugging, and deployment.
- Built reusable, scalable components to accelerate future app development.

Mobile App Developer – YSTL Solution, Islamabad (Jan 2019 – Jun 2020)

- Developed and maintained React Native apps including Call Recorder, CircleIt, and LetsRead.
- Built and integrated third-party APIs, Redux architecture, and real-time features.
- Delivered App Store & Play Store releases, managing certificates, provisioning, and app updates.
- Collaborated with QA and design teams to ensure secure, high-quality, user-friendly apps.

Education

Master of Information Technology (Software Development) 2023 – 2025

University of Southern Queensland, Australia

Bachelor of Science (Software Engineering) 2015 – 2019

National University of Modern Languages (NUML), Islamabad, Pakistan

Key Projects

- MyFitnessCoach: Diet & Workout – Cross-platform fitness app for tracking workouts & diet; built custom UIs, integrated third-party SDKs. [iOS](#) | [Android](#)
- CircleIt – Social engagement app with real-time notifications & interactive features. [iOS](#) | [Android](#)
- Vacancies – Job listing app with real-time updates & user-friendly interface. [Android](#).
